## EDUCATION

---

### Columbia University in the City of New York

Bachelor of Arts in Computer Science

September 2019 - May 2023

New York

- GPA: 3.83/4
- Honors: Deans List
- Activities: Delta Sigma Phi, Application Development Initiative
- Relevant Courses: Programming in Java, Data Structures in Java, Calculus I, Calculus III, Discrete Mathematics, Advanced Programming in C, Calculus Based Statistics, Fundamentals of Computer Systems

## EXPERIENCE

---

### Rikvin Capital

Product Research Intern

May 2019 - August 2019

Singapore

- Streamlined customer onboarding through the purchase of machine learning based customer due diligence software, enabling the customer due diligence team to be reduced from 10 members to 5.
- Researched and presented market opportunities and digital bank regulations in Singapore as part of Rikvin's application for a digital banking license in Singapore.

### Singapore Armed Forces

Corporal at Transport Hub West

July 2017 - May 2019

Singapore

- Oversaw a team of civilian contractors in the maintenance of 600 military vehicles.
- Conducted bilateral overseas military training exercises involving the Republic of China Army.

## PROJECTS

---

### Todoist Clone

React, Firebase, Javascript, HTML, CSS/Sass, Netlify

- Developed a web application with React and Firebase that allows users to create projects and assign tasks to them.
- Tasks are synced between browsers in realtime using a Firebase realtime database.
- Project styled using CSS/Sass following BEM naming conventions.

### Web Server

C, Sockets, HTTP

- Created a web server with C sockets that serves static HTML files and images.
- Server is connected to a backend database written in C that allows for the lookup of messages in a custom database.

### Personal Library Tracker

Javascript, HTML, CSS, Firebase

- Created a responsive website that allows users to keep track of books they are reading, books they have read, and information about those books using HTML, CSS, and Javascript.
- Used Firebase to save user data to the cloud.
- Project was featured on The Odin Project website.

## SKILLS

---

**Skills:** Javascript (ES6), C, Java, Python, HTML, React, CSS/Sass, UNIX/Linux, Git, Adobe Photoshop, Adobe XD

**Knowledge of:** Firebase, Webpack, Netlify
